MASTER
GLOBAL
PUBLIC HEALTH

DEGREE DESCRIPTION

This postgraduate course in Global Public Health is designed to enable you as a graduate of international healthcare to meet modern, multidisciplinary requirements in a globalised, dynamic healthcare system. You will learn how knowledge in Global Public Health is managing and promoting health, in addition to preventing illness. The course focuses on public health in industrialized as well as in developing areas of the world, as you will explore major global health problems and their relation to culture, politics, human rights and ethical values.

These topics are explored in more depth during the winter school at the European Campus in charming Lower Bavaria close to the Austrian border, and during the Summer School in Kuopio, Finland where you are surrounded by a wonderful lake area.

On graduation, top students will have gained the theoretical foundation to enable future doctorate studies or work in scientific fields.

COURSE CONTENT

The following structure and content is designed to take advantage of the potential for innovation within the growing tourism sector.

Suitable applicants are:

- Graduates of medicine, health policy and academic research
