DEGREE DESCRIPTION

Our English-taught International Management BA programme meets the demands of students who are seeking a global perspective on a management career.

If you are looking for a fully accredited business degree that integrates high academic standards with international experience, then we have a program designed specifically to meet your needs. Students gain one year of international experience by studying for one semester at one of over 170 partner universities in more than 60 countries extending from the Americas to Australasia followed (or preceded) by a 20-week internship at a foreign enterprise of their choice.

IM students learn how to do business as a global player and gain valuable leadership skills and intercultural awareness combined with a full spectrum of strategic management, marketing, finance and other relevant skills.

CAREER PROFILE

Graduates can expect to develop careers in the following fields:

- Product planning and business development
- Project planning and engineering of plants and facilities, project controlling
- Innovation and technology management
- Technical planning and controlling
- Technical procurement, organization and logistics
- Industrial goods marketing
- Sales engineering
- Controlling for technical fields
- Project management
