

AWARD CEREMONY IN 2023

## SCIENCE PRIZE FOR AI

### ANTON FINK SCIENCE PRIZE FOR ARTIFICIAL INTELLIGENCE

The Deggendorf Institute of Technology will host the award of the “Anton Fink Science Prize for Artificial Intelligence” in 2023 for the second time. This award will contribute to strengthen teaching, research and development explicitly in the field of AI. The prize, endowed with 10,000 Euros, can be awarded to individuals, start-ups, universities, research institutes, foundations and companies for groundbreaking achievements in the research, development or practical application of AI.

Industrial production and mechanical engineering are at the core of our prosperity. For this reason, the first topic of this competition is AI applications related to Industry 4.0. Additionally, central Europe is increasingly on the way to becoming a service society, making the second topic in the competition AI applications in the area of service 4.0. The third topic will focus on AI applications in medicine 4.0. The prize is intended to honor and promote digital innovations.

## APPLICATION

Applications involving research projects, research outcomes or teaching methods from Germany, Austria and the Czech Republic will be accepted. The application deadline is **31 January 2023**. Applications must include research details, an outline of the innovation created and a CV of the applicant.

**Please send your application via e-mail to:**  
[ki-preis@th-deg.de](mailto:ki-preis@th-deg.de)

The winner will be awarded on 11 May 2023.

**The following are evaluated** in the AI fields of Industry 4.0 and Service 4.0:

- Research
- Developments
- Practical applications

The application should **answer these 3 questions**:

1. What are the project / research / teaching outcomes?
2. What methods were used?
3. What innovations were created?

A CV of the applicant should be attached.

Approximately 2-3 pages are required for points 1-3.

**Prize money:**  
€ 10,000

**Young Talent Award:**  
€ 1,000

## THE JURY

The jury consists of DIT professors Prof. Dr. Patrick Glauner, Prof. Dr. Heribert Popp and Prof. Dr. Markus Mayer, DIT President Prof. Dr. Peter Sperber, FH-Prof. DI Dr. Stefan Huber from Austria, Assoc. Prof. Ivo Bukovsky, Ph.D. from the Czech Republic, the former Bavarian Minister of Science Bernd Sibler and the award founder, Anton Fink.

## CONDITIONS OF PARTICIPATION

Eligible participants are individuals aged 18 and older who are residents of Germany, Austria or the Czech Republic, as well as groups and societies that are based in these countries. Applications and research papers are accepted in both German and English.

Companies or groups of applicants must appoint one (human!) person who will make the application and be responsible for it. Participants themselves must be aware and responsible that the presentation of their ideas or projects, insofar as industrial property rights exist, can eliminate the protection of novelties. In particular, it is their responsibility to ensure the novelty of their inventions through any patent applications prior to publication within the framework of the competition. The jury accepts no liability in this respect.

The jury will treat all confidential information received during the competition as strictly confidential and will use it solely for the purpose of judging the competition. Participants agree to the making of visual and audio recordings at the award ceremony, where the winner will be announced by name.

Participation in the competition is subject to the exclusion of legal recourse. The jury reserves the right to exclude applicants. The jury also reserves the right to cancel the entire competition at any time without any given reason. The participants assure that the submitted documents do not violate any legal regulations or the rights of third parties. This includes, for example, copyrights, trademark rights, design rights, registered designs or patent rights.
