Interlibrary loan – how to order

There are two ways to send an order for interlibrary loan.

For both ways you need to be **logged in** to your library account at the OPAC.

Please always check the availability at our library before you place an order.

1) **Order by searching in further databases**
   - when you don`t have bibliographic data for your order
   - when you want to find more results you could order

2) **Order without searching in further databases**
   - when you already have bibliographic data for your order
1) **Order by searching in further databases**

Go to **Database selection** and select further databases.

First, you should try the **Bavarian Library Network**. When there are too little results, you can select further databases.
Interlibrary loan – how to order

You can do your research now:

You get results from Deggendorf Institute of Technology and from Bavarian Library Network.

To order an interlibrary loan click a title that we do not have in Deggendorf.
