

First PLV Week (Career Service Seminars)

PLVs are practical courses in the form of seminars (PLV) which are organized and held at the university. These must be completed before the start of the practical semester in the 5th semester.

The first PLV will be replaced by seven seminars by the Career Service. Every student in the Energy Systems Engineering programme has to participate in four seminars from the "Study and Personal Competencies" category and three seminars from the "Career Competencies" before the internship in the sixth semester. Please download the confirmation form for the seminars on the iLearn platform under Career Service.

The following table is a schedule recommendation by the Career Service:

Between the 1 st and 3 rd semester (Study and Personal Competencies)			
Time- & Self-Management (obligatory in the 1 st semester)	Any seminar from the Study and Personal Competencies category	Any seminar from the Study and Personal Competencies category	Any seminar from the Study and Personal Competencies category

Between the 4 th and 5 th semester (Career Competencies)		
Any seminar from the Career Competencies category	Any seminar from the Career Competencies category	Any seminar from the Career Competencies category

Register for Career Services seminars at <https://pmit-ext.th-deg.de/seminare/ec>
 The topics of the seminars can vary each semester.

Note: The above tables are merely a recommendation; you are free to create your own schedule (except obligatory seminar).

Students can register for the seminars on the Career Service's website under "PLV". After every seminar, the lecturers will sign the confirmation form. After having taken all seminars, please **upload the fully signed confirmation form** to the internship database in **PRIMUSS** (Mein Studium / Praktikumsverwaltung). The Career Service will check the confirmation form for accuracy and completeness. After the verification, the passing of the 1st PLV is registered.

Students are **self-responsible** for taking and passing the seminars before their internship begins.
